

Dear Friends of Plano West Lacrosse Club:

Thank you for considering Corporate Sponsorship for Plano West Lacrosse Club.

This year we have a new head coach John Marano, who brings a wealth of lacrosse playing and coaching experience to our program. We feel very passionately that our coaching staff will be the finest in the state. Our kids are pumped up to do well both in the fall tournament season, and in the spring regular season.

There are many sponsorship levels that we offer with varying levels of advertisement and acknowledgement.

- **Diamond Sponsors:** This provides you with the most visibility at the events we promote and the advertisements we create. Diamond Sponsors will be prominently displayed on our spring team poster, which will be displayed in many of the areas local restaurants and businesses. You also get 2 complimentary tickets to our first ever Silent Auction and Dinner, a season pass to all Plano West home games, a logo placed on our team banner displayed at all our home games, a full page ad in our team program, recognition on our team website, and a Plano West Lacrosse Polo shirt which you can proudly wear when you attend our games.
- **Gold Sponsors:** You get 2 complimentary tickets to our Silent Auction and Dinner, a logo placed on our team banner displayed at all our home games, a full page ad in our team program, and recognition on our team website.
- **Silver Sponsors:** You get 1 complimentary ticket to our Silent Auction and Dinner, a logo placed on our team banner displayed at all our home games, a 1/2 page ad in our team program, and recognition on our team website.
- **Bronze Sponsors:** You get a business card size ad in our team program and recognition on our team website.

Because we are a “Club Sport” our team depends on sponsors like you to help us achieve our goal of having a successful season. We hope this will be a great way for you to support your local high school lacrosse team as well as promote your business at the sponsorship level of your choice.

With your support, we have a chance at doing even better.

Sincerely yours,

Peter Schochet M.D.
